Jasmine Kermeas, Office of Canterbury Bankstown

General Business

1. Welcome, Apologies and introductions

The Chair declared the meeting open at 4.03 pm.

Apologies noted above.

The Chair acknowledged the traditional owners of the lands on which the meeting was held.

2. Minutes of last meeting

The Committee considered the draft minutes of the meeting held 15 May 2023.

The Committee RESOLVED to approve the minutes of the meeting held 15 May 2023 as an accurate record of the matters discussed. *[Moved Hamish Wood; Seconded Bryan Beudeker ; carried]*

3. Matters Arising

1. *Update on Community Battery Project:* A grant request has been submitted to Chris Bowen's office for

Enfield Community Liaison Committee - Meeting Minutes

a community battery program.

2. *Report on reach stacker fire.* LINX was approached for additional information, however they were unable to provide information due to the current legal position.

The Chair confirmed both items are to be closed.

NSW Ports Business Update

4. Corporate Affairs update

B Eggleton presented the Corporate Affairs update, highlighting the following:

- The recipients of the 2023 Community Grants Program have been awarded – with the successful recipients formally announced in June. The program was first launched in 2021 and since that time, NSW Ports has supported over 50 community projects and awarded \$500k in grant funding over three (3) years. One of the successful projects specific to Enfield is supporting an arts program for seniors (older Women’s Network Bankstown Wellness Centre) and is in collaboration with other community. NSW Ports recently hosted delegates for the project at the Enfield ILC. This project will involve bringing people into the precinct as part of the arts program (the program will have a transport theme) and it will end with a community event to exhibit participant’s art works. It’s TBC where this exhibition will be held.
- NSW Ports officially launched its 40-year Master Plan, which has been circulated to members. The plan was formally published in June and is available on the website for download. Members are encouraged to review the document as it outlines objectives, actions, and strategic goals across the next 4 decades.
- You can download it here: <https://www.nswports.com.au/NSWPorts-Master-Plan>

Planning Update

5. Planning issues

H Wood spoke to the ongoing Flower Power major projects approval. The modification application is relatively straight forward and ensures the remediation of the site is undertaken in accordance with the previous DA. The Department consent authority will be attending onsite to conduct an inspection. The commencement of construction is likely to be as soon as the DA is approved, noting a conservative timeframe is likely to be 3-4 months, and a best-case estimate being 2 months.

Geoff De Santis left the meeting at 4.15 pm

There were no further planning updates.

Committee Member Updates

6. Tenant developments – LINX, Swift

LINX Cargo Care Group

No update was provided by LINX.

Swift

No update was provided from Swift.

7. Council updates

Strathfield Council

J Inglese informed the Committee that:

Enfield Community Liaison Committee - Meeting Minutes

- There has been some recent works on Cosgrove Road (Cnr Hope Street) due to trucks jumping the corner. The modifications are working well, with the exception of a minor incident in the first week due to a truck damaging the guard rail.
- A request for a no stopping sign/s has been received where Bellfrog Avenue meets the access road that runs into the Enfield Goods Yard. The no stopping sign/s have been requested as vehicles come out of the side street. Council noted the request is likely to not be an issue.

Canterbury-Bankstown Council

No update was provided.

HSE Update

8. Summary of complaints/incidents

There has been no environmental complaints and no incidents in the last three months. NSW Ports recently hosted NSW Fire & Rescue on site at Enfield ILC so they could undertake some compliance monitoring of their trucks and to test their equipment.

Louise Symonds highlighted recent noise activity at night with constant beeping (similar to vehicles reversing). While the source of the noise was unknown, it was not thought the noise relates to NSW Ports. NSW Ports indicated they will request night security to monitor and drive around the precinct to listen for noise.

Other Business

9. Other business

Jon Stewart addressed the group as the new General Manager, Strategy and Corporate Affairs at NSW Ports. He commenced in his position six (6) weeks ago and joined the executive leadership team of NSW Ports reporting to the CEO. He highlighted the importance of senior staff attending the community meetings, and noted regular NSW Ports representatives will continue to attend. He invited the group to provide feedback to Jon directly at any time.

There was no other business.

Next Meeting

There being no further business, the meeting closed at 4.30 pm.

The next meeting is scheduled for Monday, 20 November 2023.

These minutes have been endorsed by the Chair, Ian Colley
