## Enfield Community Liaison Committee - Meeting Minutes

There were no matters arising.

### NSW Ports Business Update

#### 4. Corporate Affairs update

E Jimenez provided an update on the following matters:

- 170 applications have been received for community grants with recipients expected to be announced in the week commencing 10 June. The number of applications was slightly fewer than the previous year.
- The NSW government has commenced a freight policy reform program. NSW Ports will be submitting a consultation paper that is due at the end of May 2024. The scope of the program is relatively broad, and relates to the role of freight in the overall NSW supply chain.

### Planning Update

#### 5. Planning issues

H Wood informed the Committee that there were no new planning matters to report on. He provided an update on the Flower Power development. A detailed design submission is expected by the end of the week, noting that this will be the third iteration of the design. The submission will be reviewed as quickly as possible to enable work to proceed. It is relatively minor and mostly relates to the carpark and site layout. NSW Ports has been negotiating with Flower Power regarding the change with the goal of minimizing the impact of the development on the local area.

The Committee sought further information about the Flower Power development.

There were no further planning updates.

G Phillips noted that the Cooks River runs through the Strathfield Golf Club, which is on a flood plain. The Club is working to tidy up the river and make some changes to the site to improve the aesthetics and reduce pollution.

### Committee Member Updates

#### 6. Council updates

##### *Canterbury-Bankstown Council*

M O’Gorman provided an update on behalf of Canterbury-Bankstown Council. He informed the Committee that an exhibition on the local catchment and waterways will be launched in June. Council welcomed input from members.

#### 7. Tenant Update

G De Santis noted that there was nothing to report on behalf of Swift.

The Committee questioned whether the rail duplication has resulted in an increase in movements. G De Santos confirmed that the train is fully utilised and is full every day. Movements are governed by the time slots in and out of the wharf. It is not possible to get the number of rail movements compared with road movements.
