1. Previous Actions

No open actions.

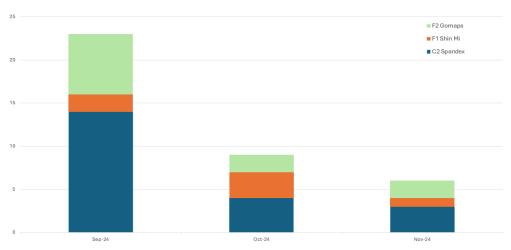

2. Precinct Update

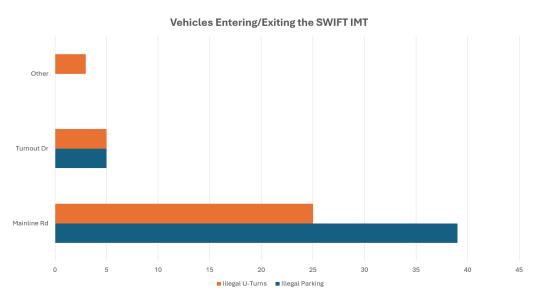

2.1. Traffic Observations (PU)

1st of September 2024 to 5th of December 2024

Reversing Movements Observed at Enfield ILC Warehouses

Action: As requested by Geoff DeSantis, provide monthly traffic infraction event reports to SWIFT which detail relevant information for escalation to the carriers.

(GDS) All truck drivers have copies of the SWIFT traffic management plans and have copies of the necessary procedures. Due to current restrictions related to enforcing any layout/operational changes, Geoff to commit to liaising with outside carriers to reinforce correct behaviour.

2.2. Enfield IFTR Report (PU)

As a planning approval condition, NSW Ports must provide an Enfield Intermodal Freight Transport Report (IFTR) to the Department of Planning. Letters were issued to precinct tenants on the 22nd of November requesting the provision of freight data from the period of FY24.

2.3. Road Maintenance Updates (MG)

In response to high volumes of traffic infractions, lane delineators within the chevron painted area on Mainline Rd are due to be installed in December. The intention is to minimise the dangerous behaviours undertaken by vehicles onsite such as illegal parking and illegal U-turns.

2.4. Enfield ILC CCTV Upgrade Project (MG)

A total of 6 cameras are being installed around the precinct this financial year to assist in CCTV coverage and visibility. All new cameras will be 'UFO' cameras meaning they will have 4 fixed cameras and a pan-tilt-zoom (PTZ).

3. Operations Update

3.1. Swift Transport

Nothing to report.

3.2. Northside Fine Foods

No representative in attendance

3.3. Spandex

No representative in attendance

3.4. GOMAPS

No representative in attendance

3.5. Chin Mi

No representative in attendance

3.6. Mapei

No representative in attendance

3.7. Marinucci

No representative in attendance

3.8. Strathfield Council

Nothing to report

4. Other Business

4.1. Environmental Audit (BB)

Last year's environmental audit resulted in a non-compliance in relation to NSW Ports Traffic Capacity Monitoring Program which is stipulated within our Overarching Traffic Management Plan (OTMP). As a result, NSW Ports are committing to the implementation of additional CCTV and are now receiving traffic data directly from TfNSW.

Subsequently, the NSW Ports OTMP has been updated and submitted for approval to the Department of Planning as it is an amendment to a plan which reflects our conditions of approval.

4.2. Next Meeting

TBA
